

Install Git

[Git Official Guide](#)

Installing on Linux

Red Hat

```
sudo dnf install git-all
```

Debian

```
sudo apt install git-all
```

MacOS

```
git --version
```

Windows

[Git for Windows Download Page](#)

or try "Winget"

```
winget install --id Git.Git -e --source winget
```

Navigate to the Downloads Directory

Debian, Red Hat and MacOS

```
cd /Users/<username>/Downloads
```

Windows

```
cd %HOME%\Downloads
```

Use Git Clone to Download our Public Repo

```
git clone https://github.com/SCSU-Cyber-Competition-Club/SCSU_CCDC2023-2024_PUBLIC.git
```

- The repo folder should show up in your downloads folder within your file explorer.
