Example of Zone Segmentation

NAME	TAGS	TYPE	SOURCE ZONE	SOURCE ADDRESS	SOURCE USER	SOURCE DEVICE	DESTINATION ZONE
B2B-PCI-Access	B2B	universal	B2B	any	Bob	any	PCI
Acct-PCI-Access	Accounting	universal	Accounting	any	Accounting_Grp	any	PCI
intrazone-default	none	intrazone	any	any	any	any	(intrazone)
interzone-default	none	interzone	any	any	any	any	any

Example

- Create a Security policy rule to allow required interzone traffic:
- Bob in the B2B zone is allowed to access the PCI zone.
- The Accounting-Grp in the Accounting zone is allowed to access the PCI zone.
- Any other interzone traffic is blocked, by default
