Collegiate Cyber Defense Competitions

Inject Name	Team as an Effective Organization
Inject ID	ORGR06T

Description	Describe the team in the following terms: 1.) Are there defined areas of expertise that each member is responsible for, such as Windows Server Administration, or Firewall Manager. 2.) For each area of expertise, is there a secondary or backup member. 3.) In preparation does the team practice these roles and the backup roles. 4.) Are there missing areas of coverage, or other improvements needed.
Deliverables	Respond with a business memo addressing each of the 4 areas.
